Rosewood Violet 20th x2204416—Here is a young Rosewood cow sired by Sultan Stardale x that will calve very soon to the service of Stardale Legend x. The calf should be a show prospect. There is a world of good breeding in this pedigree. Be sure to look this lot up on sale day.

Polled Shorthorns are the most practical and most profitable cattle for Corn Belt farms today. Packer buyers pay a premium for fat cattle without horns; farmer bull buyers prefer the hornless type; small breeders are buying Polled bulls in order to more easily fill the farmer needs; there is no doubt but that Polled Shorthorns are the "Ultimate Type." The future is bright. Present prices are moderate. Why not buy now? This sale provides an excellent source of supply for the kind upon which successful herds may be founded.

Today's type 25 years ago. This is Royal Rosemary x, bred by Rose and sired by Royal Stamp, he the International grand champion in 1920. This heifer was sold to J. M. Fishpaw & Son, Berryville, Va., where she founded a highly profitable family.

The Consignment from H. C. Rose & Sons, Rossville, Indiana

Polled Shorthorn cattle have been bred continuously on the Rose farm for 49 years. The first bull used was Lord Mayor x, bred in the famous herd of J. H. Miller, Peru, Ind. Such famous sires as Cumberland Emblem x, Mardale Jr. x, Bourbon Browndale x, Lynnwood Defender x, Collynie Masterstroke 3d x and Rosewood Baron x have been used successively. The herd is recognized as a source of supply for top seed stock and many animals have been produced that have qualified for the discriminating export trade. The 15 head in this sale are from the same fine families that have made Rose cattle famous wherever Polled Shorthorns are known.

We bred and raised him and he has been our recent herd sire. Most of our cows have dropped two calves by him and will be bred back to him again by sale time. We are selling this bull because he is closely related to some of our cows which has necessitated our keeping two herd sires. Nine calves by Rosewood Baron are listed in our consignment to this sale. We ask you to look these calves over carefully before you place a value on this bull. He is bred right, made right and I think you will say his calves are "just right."

Feed production and feeding as well as attractive road and entrance signs are stressed in these pictures from Collins farms, LaCrosse, Indiana. At the upper left are some of the good-colored, deep, thick-fleshed Polled Shorthorn cows of the Collins herd. Back of the sign with the arrow is a field of forage while on both sides of the lane leading to the farmstead are meadows. At the lower left is an improvised creep by which calves are allowed to eat grain while following their dams on pasture.

"Tim" Collins, a Chicago investment banker, and his wife have built the Collinsby Herd at LaCrosse, Indiana, together. Both are expert judges and the names of both appear at the top of the list of the most loyal Polled Shorthorn boosters. In founding their herd they left no stone unturned to acquire top individuals that were backed by top bloodlines and the Collinsby productions all display the character, quality and style that can result only from such seed. They have supplied a fine consignment for this important auction.

The World Appreciates Polled Shorthorns

No other breed has enjoyed greater popularity among stockmen in foreign countries as witnessed by the export trade, than Polled Shorthorns. The great strides made in breed improvement have been recognized by leading breeders of cattle in 10 countries: Argentina, Australia, Brazil, Canada, Dominican Republic, New Zealand, Scotland, South Africa, Uruguay, and Venezuela. Of added significance is the fact that most of these exportations have been made during the last few years regardless of war and uncertainties in world conditions. When stockmen the world over put that much faith in the breed, then we say that Polled Shorthorns have a definitely established future. Polled Shorthorns offer hornlessness plus coveted weight-for-age, correct type, quality, gentleness, milking ability, thrift, economy, long productivity, and pleasure.
